

VXi BlueParrott® Wireless Headsets

Free your hands and enjoy greater freedom of movement while on a call. VXi wireless headsets provide clarity of sound, comfort, a variety of wearing styles and dependable performance. Superior noise-cancelation technology effectively blocks out unwanted background sounds in the office, on the road or at home.

VXi V100

Go hands-free and increase your productivity in the office (digital) or at home (analog). Add the L50 handset lifter to answer and end calls remotely up to 300 feet from the base. Includes over-the-head, over-the-ear and behind-the-neck wearing styles.

VXi BlueParrott® Xpress™

Perfect for noisy environments, the lightweight (0.6 oz.), over-the-ear Xpress features VXi's Xtreme Noise Suppression™, cutting 95% of background noise. Plus, wideband audio for great sound, A2DP support and up to seven hours of talk time per charge.

VXi BlueParrott® B250-XT

This lightweight, over-the-head style is comfortable enough to wear all day long because it is designed specifically for high-noise environments. Flexible gooseneck mic boom rests in front of the mouth and features multifunction button controls that are right at your fingertips. Multifunction button controls are right at your fingertips. Comes with DC (auto) and AC charging options.

VXi BlueParrott® B250-XT+

The best just got better! Enhanced Xtreme Noise Suppression knocks out 95% of background noise while wideband audio lets you hear every word. This next gen headset delivers more than 20 hours of talk time per charge and supports A2DP for use with other Bluetooth-enabled devices.

VXi Professional Corded Headsets

VXi's noise-canceling headsets are the headset of choice at many of the largest professional contact centers in the U.S., Canada and around the world. Proven sound quality, durability and a lightweight, comfortable design make VXi headsets ideal for all-day use in the most demanding environments. Highly flexible "gooseneck" boom ensures proper microphone positioning. And our high-quality audio receivers provide clear and consistent communications. All VXi headsets, adapters and amplifiers are available with VXi, Plantronics® or GN Netcom® compatible quick-disconnects for easy integration with currently installed equipment.

VXi Tria™ Convertible

Three wearing styles to suit your preference. Hearing protection feature protects you from sudden, unexpected sound spikes (such as fax machines).

VXi TalkPro™

The speech recognition leader with wideband audio, for improved accuracy. UC models add DSP and echo cancelation for unmatched voice quality. With seven models to choose from, they're perfect for speech recognition, contact center or office use.

VXi Passport® 10

Monaural (single-speaker) style leaves one ear free to hear other conversations. The headband has a ratchet adjustment to ensure a comfortable, no-slip fit.

VXi UC ProSet™

The new standard for performance and value. Wideband audio for easy-to-understand sound quality. Advanced noise-canceling eliminates 90% of background noise. Highly durable and interchangeable with other headset brands. UC-ready whether you have a Unified Communications system or are weighing your options.

VXi Passport® 21

Single-wire binaural (two speakers) style blocks out background noise. Ear cushions cup the ear for improved sound and a comfortable fit. Microphone boom rotates for left or right side positioning.

¹Requires purchase of VXi USB U-cord to connect to computer. ²Computer must be Bluetooth® compatible. ³Over-the-ear, over-the-head, and behind-the-neck options. ⁴Over-the-head and behind-the-neck sold separately. Requires purchase of Xpress Convertible Wearing Styles Kit. ⁵UC version only.

X100 USB Adapter
For VoIP, speech recognition and softphone applications. Features include inline mute, volume controls and wideband audio. Plug-and-play design provides fast and easy set-up. Compatible with Windows® and Macintosh® operating systems.

X200 USB Adapter
Optimized for Unified Communications (UC) and includes all the functionality of the X100 USB adapter. Echo cancelation and Digital Signal Processing (DSP) eliminates VoIP latency and background noise. One-touch answer/end call features improve user productivity (dependent on softphone applications). Compatible with Windows®, Macintosh® and Linux® operating systems.

Everon Amplifier
Works with virtually any desk phone. Quick and easy installation and exceptional battery life. True-Mic™ noise suppression eliminates background noise when the operator is not speaking. Convenient access to volume adjustments, microphone mute and headset/handset switch.

L50 Handset Lifter
Use with the V100 wireless headset system and corded business phones to answer and end calls anywhere within the headset's 300-foot range.
